

HPNS Technical Team Meeting Agenda
May 15, 2018, 1000-1100 PT

1. Welcome and check-in

Navy BRAC – ~~Steve Banister, Pat Brooks~~, Danielle Janda, Derek Robinson, Thomas Macchiarella

Navy BRAC Consultants – Craig Bias, Scott Hay, Kim Henderson, Kathy Higley

RASO – ~~Zach Edwards~~, Matt Liscio, Matt Slack

EPA and consultants – Karla Brasaemle, ~~John Chesnutt~~, Jana Dawson, ~~Donna Getty~~, David Kappelman, Lily Lee, ~~Lyndsey Nguyen~~

DTSC – Nina Bacey, ~~Janet Naito~~

CDPH – ~~Tracy Jue~~, ~~Sheetal Singh~~, Matt Wright

City (includes OCII/SFDPH and consultants) – Amy Brownell, Bob Burns, Christina Rain

Water Board – Tina Low, ~~David Tanouye~~

2. Download from 5/15 Board of Supervisor's hearing – Thomas indicated that the biggest takeaway from the hearing was the desire for conducting testing on Parcel A and the Navy received a letter from City officials reiterating this. The regulatory community would be the best suited to lead this effort and the Navy committed to supporting and providing funding. TtEC's lawyer attended but was dismissed from the hearing. Nina indicated that DTSC and CDPH conducted a site visit at Parcel A last week and there are concerns with surface gamma scanning based on the development and surface materials now on-site. EPA is preparing a fact sheet regarding the regulatory agency's involvement at the time. Matt Wright raised concerns on reviewing current TtEC reports; however, Battelle is providing 3rd party verification and oversight and Lily will provide Matt to provide additional information.
3. Logistics for 5/17 site visit – Lily indicated that prior to the hearing, EPA reached out to former workers who had provided previous allegations to gather additional information. As a result, a site visit is planned on Thursday with David Anton, Bert Bowers, and Don Wadsworth to visit four areas: a former manhole with concerns that have since been replaced with soil, a location where potential radiological impacted soil from sewer line removals was allegedly taken by an unspecified truck and disposed of, the intersection of Fisher and Spear Avenue, and housing area between Parcels A-1 and A-2 where former buildings D-19, D-20, and D-21 were located. The plan is to meet at the Storehouse at 10 AM to review maps and photos prior to the site visit. EPA and legal will attend. The Navy and City were invited. The Navy will be sending a representative. No press will be attending.
4. Update on work plan for soil and buildings
- Working on revised work plan for Parcel G soil and buildings and RTCs – With a goal to expedite getting out in the field, the draft master work plan reviewed by the agencies in March is being transitioned to a work plan for Parcel G soil and buildings. The comments received will be incorporated into this work plan, planned for submittal to the Navy for review this month. Lily indicated she is responding to a FOIA request for the draft work plan and comments today.

- April site visit – Parcels B and G buildings and background reference areas – Visited background reference areas and potential undisturbed locations. The potential undisturbed locations were not ideal and Lily provided input on some potential off-Base locations. The locations are being researched.
- Working on background work plan for soil – A separate work plan for background soil is being prepared. Lily indicated that based on recent management meetings, EPA recommended combining the work plans for submission to the public. The Parcel G work plan includes language on how background soil will be collected. The Navy committed to submitting the Parcel G work plan for public review and will consider incorporating background soil for public review.

5. Update on findings reports

- Parcels B and G Soil
 - i. Draft final with updated RTCs with Navy for review
- Parcels D-2, UC-1, UC-2, and UC-3 Soil
 - i. RTCs with Navy for review
- Parcel C Soil
 - i. Pending EPA comments
- Parcel E Soil
 - i. Pending EPA comments
- Buildings
 - i. Pending EPA, DTSC, CDPH, and SFDPH comments – State and EPA have drafted comments, they are pending management review, and are next on the priority list.

6. Future calls/meetings

- 6/5/18, 1000-1100 PT status call
